Supplemental Appendix A.
Education Research Survey

This survey is being conducted by the ACOTUP Research Sub-Committee on Education in an effort to identify the range and scope of education-related research being conducted by occupational therapy faculty in Canada. We hope this study will advance research in this arena, and to foster partnerships, information sharing, and funding opportunities. You will notice that this survey is not anonymous. Information on you and the institution you work with will help us cross-match information provided by multiple respondents and to create linkages between faculty members who are involved in this important area of research. Your individual responses will not be published in any report or publication, however, or shared with others without your express permission.

Your submission of responses to this online survey indicates your agreement to participate in this study. Do you wish to continue?

- **Yes**
- **No**

**Background information**

Your name

Educational Institution

Department or Program

Position

Rank

Is this a tenure track position?

- **Yes**
- **No**

Is research an expectation of your position?

- **Yes**
- **No**
Involvement in Educational Research

Please indicate below the types of projects you have been involved in previously or at the present time, or any that you are planning for the future. In the open boxes, add any project types that you consider to be educational research, but are not listed.

Comments

Provide below any additional comments or information not captured in publication or presentation titles.
**Enabling Educational Scholarship**

This section addresses funding and research collaborations as vehicles for supporting educational research.

Enter below a short project title, and then select the types of partners you worked with on this study.

<table>
<thead>
<tr>
<th>Project</th>
<th>Collaborators (these should show up as a horizontal table with checkboxes)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>o OT faculty within my program</td>
</tr>
<tr>
<td></td>
<td>o OT faculty at other Canadian schools</td>
</tr>
<tr>
<td></td>
<td>o Other professionals within my institution</td>
</tr>
<tr>
<td></td>
<td>o Other professionals from other institutions</td>
</tr>
</tbody>
</table>

Do you have any comments on collaboration in educational research the above grid does not cover?

What internal and external funding sources (e.g. internal university grants, TriCouncil funding, foundations) have you accessed to support your educational research?
Under what categories were the funding opportunities you indicated listed?

- Education
- Mentorship
- Interprofessional Partnerships
- Healthforce development
- Other (describe below)

What additional supports would assist you in doing educational research?
